Tech integration for early childhood education as thoughtful as it is wholehearted Technology isn't just a way to innovate instruction; it's also the key to building classrooms that are dynamic, playful, and truly connected. In Innovating Play, early childhood educators Jessica LaBar-Twomey and Christine Pinto share the insights that led their kindergarten classes to generative, daily collaborations from opposite ends of the United States. In the process, they offer elementary educators a powerful set of digital tools that transform social-emotional learning. LaBar-Twomey and Pinto guide readers through the process of leveraging classroom technology in order to foster empathy and broaden horizons. With a warm, inviting style, and drawing from the rich examples of their own classrooms, Jessica and Christine offer a treasure trove of actionable, impactful tips that will help you seamlessly connect your students with the world around them. "Christine and Jessica have created an incredibly insightful, realistic, robust guide to innovating early childhood education based on their own classroom instruction. Their masterfully crafted pedagogy weaves together authentic learning, design thinking, and tech integration all through the play and discovery learning so crucial for our youngest learners. Innovating Play is guaranteed to inspire, guide, and support meaningful technology integration for authentic learning experiences." -Lisa Highfill, technology integration specialist, co-author and creator of The HyperDoc Handbook and Teachers Give Teachers "This book will provide coaches the resources and detailed examples to support teachers in implementation. The examples drive digital literacy for all and never deviate from core curriculum practices. Jessica and Christine have showcased a multitude of ways in which equity and inclusion have been intentionally embedded through their cycle of learning." -Nyree Clark, curriculum program specialist, technology, TK-6 "Innovating Play is a fun, easy-to-read how-to resource for early childhood educators that blends core curriculum and purposeful tech beautifully. Christine and Jessica not only model their design to teach twenty-first-century skills to our littles, they will inspire you to reimagine and innovate play in your own class!" -Erika Sanchez, MEd, kindergarten teacher

"Witches are gathering." When most people hear the word "witches," they think of horror films and Halloween, but to the nearly one million Americans who practice Paganism today, it's a nature-worshipping, polytheistic, and very real religion. So Alex Mar discovers when she sets out to film a documentary and finds herself drawn deep into the world of present-day witchcraft. Witches of America follows Mar on her immersive five-year trip into the occult, charting modern Paganism from its roots in 1950s England to its current American mecca in the San Francisco Bay Area; from a gathering of more than a thousand witches in the Illinois woods to the New Orleans branch of one of the world's most influential magical societies. Along the way she takes part in dozens of rituals and becomes involved with a wild array of characters: a government employee who founds a California priesthood dedicated to a Celtic goddess of war; American disciples of Aleister Crowley, whose elaborate ceremonies turn the Catholic mass on its head; second-wave feminist Wiccans who practice a radical separatist witchcraft; a growing "mystery cult" whose initiates trace their rites back to a blind shaman in rural Oregon. This sprawling magical community compels Mar to confront what she believes is possible-or hopes might be. With keen intelligence and wit, Mar illuminates the world of witchcraft while grappling in fresh and unexpected ways with the question underlying all faiths: Why do we choose to believe in anything at all? Whether evangelical, Pagan priestess, or atheist, each of us craves a system of meaning to give structure to our lives. Sometimes we just find it in unexpected places.

This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible impact on future international relations. This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

"Every year, Johann Sebastian Bach's major vocal works are performed to mark liturgical milestones in the Christian calendar. Written by a renowned Bach scholar, this concise and accessible book provides an introduction to the music and cultural contexts of the composer's most beloved masterpieces, including the Magnificat, Christmas Oratorio, and St. John Passion. In addition to providing historical information, each chapter highlights significant aspects--such as the theology of love--of a particular piece. This penetrating volume is the first to treat the vocal works as a whole, showing how the compositions were embedded in their original performative context within the liturgy as well as discussing Bach's musical style, from the detailed level of individual movements to the overarching aspects of each work. Published in the approach to Easter when many of these vocal works are performed, this outstanding volume will appeal to casual concertgoers and scholars alike." -- Publisher's description
