Perfect for software engineers who need a paper notebook for college, university, work, or professional career. Makes a great gift for software engineering majors or graduation gift for software engineers.

Students of all levels need to know how to write a well-reasoned, coherent research paper—and for decades Kate L. Turabian ' s Student ' s Guide to Writing College Papers has helped them to develop this critical skill. For its fifth edition, Chicago has reconceived and renewed this classic work for today ' s generation. Addressing the same range of topics as Turabian ' s A Manual for Writers of Research Papers, Theses, and Dissertations but for beginning writers and researchers, this guide introduces students to the art of formulating an effective argument, conducting high-quality research with limited resources, and writing an engaging class paper. This new edition includes fresh examples of research topics, clarified terminology, more illustrations, and new information about using online sources and citation software. It features updated citation guidelines for Chicago, MLA, and APA styles, aligning with the latest editions of these popular style manuals. It emphasizes argument, research, and writing as extensions of activities that students already do in their everyday lives. It also includes a more expansive view of what the end product of research might be, showing that knowledge can be presented in more ways than on a printed page. Friendly and authoritative, the fifth edition of Student ' s Guide to Writing College Papers combines decades of expert advice with new revisions based on feedback from students and teachers. Time-tested and teacher-approved, this book will prepare students to be better critical thinkers and help them develop a sense of inquiry that will serve them well beyond the classroom.

COLLEGE RULED : Ideal for school, college, office, and home uses. Perfect for note-taking, random writing and to-do lists. It can also be used as a diary, journal and more.US LETTER SIZE (8.5" x 11")130 PAGES / 65 SHEETSHIGH QUALITY WHITE PAPER (60lb / 90 GSM): Compatible with gel pen, ink and pencil.LIGHTWEIGHT GLOSSY PAPERBACK: Compact and easy to carry around.PERFECT BOUND BINDING: Lightweight, flexible and sleek.MADE IN THE USA

College rule (also known as medium ruled paper) is the most common lined paper in use in the United States. It is generally used in middle school through to college and is also popular with adults. This is a good choice for teen or adult notebooks and composition books (known as exercise books outside the US). Size 6 x 9 in or 15.24 x 22.86 cm 120 pages

The volume includes a set of selected papers extended and revised from the I2009 Pacific-Asia Conference on Knowledge Engineering and Software Engineering (KESE 2009) was held on December 19–20, 2009, Shenzhen, China. Volume 2 is to provide a forum for researchers, educators, engineers, and government officials involved in the general areas of Knowledge Engineering and Communication Technology to disseminate their latest research results and exchange views on the future research directions of these fields. 135 high-quality papers are included in the volume. Each paper has been peer-reviewed by at least 2 program committee members and selected by the volume editor Prof.Yanwen Wu. On behalf of the this volume, we would like to express our sincere appreciation to all of authors and referees for their efforts reviewing the papers. Hoping you can find lots of profound research ideas and results on the related fields of Knowledge Engineering and Communication Technology.

Today more and more ethnically, culturally, and linguistically diverse students enroll in our college and university courses. These diverse, multilingual students enrich our campuses and at the same time present challenges. Who are these students? What skills do these diverse students need to be successful in college? How can faculty help them succeed? For faculty in all disciplines seeking answers to these questions, this is an essential book. This text provides practical advice on how to assist these students with academic tasks and how to help them to succeed in the academy.

Essay Collection covering the point where software, law and social justice meet.

2012 International Conference on Software Engineering, Knowledge Engineering and Information Engineering (SEKIE 2012) will be held in Macau, April 1-2, 2012. This conference will bring researchers and experts from the three areas of Software Engineering, Knowledge Engineering and Information Engineering together to share their latest research results and ideas. This volume book covered significant recent developments in the Software Engineering, Knowledge Engineering and Information Engineering field, both theoretical and applied. We are glad this conference attracts your attentions, and thank your support to our conference. We will absorb remarkable suggestion, and make our conference more successful and perfect.
