The #1 bestselling author presents his most important book since The Automatic Millionaire and gives Canadians the knowledge, the tools, and the mindset to get out of debt — forever. Whether you are working off student loans or trying to meet the minimum balance on your credit card bill, you are probably worried every time you open your mailbox. With salaries frozen and layoffs looming, how will you ever be able to pay down that debt, let alone retire in peace? Here, David Bach offers a new philosophy made for our times, a paradigm-shifting approach to finance that teaches you how to pay down your debt and adopt a whole new way of living. If you have debt, you can be rich but still not free. When you pay down your debt, you reach Freedom Day, that glorious moment when you need a lot less money just to live. On that day, you are truly free. You can have a smaller nest egg and still retire, perhaps even earlier than you expected. With his trademark motivational energy and take-action step by step advice, Bach helps you revolutionize your finances. In these lean times, it's still possible to live your financial dreams. Let David Bach show you how.

Popular blogger Anna Newell Jones of AndThenWeSaved.com delivers this self-help manifesto that reveals how a "spending fast" will help you get on the road to living debt-free. In 2009, young photographer Anna Newell Jones was rapidly suffocating under the weight of too much debt. An inveterate "spender," she was in way over her head, to the tune of almost \$24,000. She knew her debt was only going to get worse if she didn't take action, but she didn't know where to look for help. On a whim, Anna decided to go on a spending fast—an idea she heard in passing but knew little about. Creating her own method, she learned what worked and what didn't and wrote about it on her blog, AndThenWeSaved.com. Amazingly, Anna was able to eliminate all \$23,605.10 of her debt in only 15 months! She was interviewed in Forbes, Self, Glamour, Good Housekeeping, and the Chicago Tribune. Anna's journey inspired people and showed them that they too could change the way they dealt with their own money woes. The Spender's Guide To Debt-Free Living takes readers through a detailed step-by-step plan on how to do a Spending Fast and get out of debt, including: Creating a personalized Debt-Free Life Pledge. Understanding where your money is going when you're in debt, and where it will come from to pay it off. Learning why putting money into a savings account before (or while) paying off debt may not be the best idea for you. Finding additional income sources and generating side gigs. Re-integrating spending into your life once you're out of debt, so that you stay out of debt. Filled with do-it-yourself ideas, insight from experts, and tons of motivational tips and real-life practical advice, The Spender's Guide to Debt-Free Living proves that you don't have to win the lottery or get a new job to change your life.

Get rid of your debt without giving up your life No one wants to be in debt. But life happens and if you've got debt, life has happened to you. Whether you have a rolling balance of \$2,000 on your credit card or an \$80,000 line of credit you are positive you will carry to your grave, debt can be a huge cause of stress—affecting both your emotional and financial wellness. After working with thousands of financial planning clients, Shannon Lee Simmons knows that your only way out of the debt cycle is to truly understand all of your spending triggers so you can shut them down for good. In Living Debt-Free, she shows you that it is possible to have a life and pay down debt at the same time. In fact, that's the only way your debt plan will work. You will learn to take control of your finances and pay down your debt in a realistic way that will keep you motivated long enough to see it through to the end. No shame. No blame. No scare tactics. In Living Debt-Free, Simmons focuses on creating a debt repayment plan that will motivate you for a long time, rather than an unrealistic one that's strictly about paying the least amount of interest charges. (Collective gasp—how dare she!?) Listen, everyone knows that paying interest on debt is bad and to be avoided as much as possible, but human beings are complex. Life is complex. Debt is complex. There cannot be a one-size-fits-all plan, so Living Debt-Free will help you build your plan—the one that will help you finally put the debt behind you, start fresh and feel good about your money again.

Life After Debt is the culmination of thousands of one to one meetings with people just like you and I but deep in debt. In many cases their debt was not so much a function of irresponsibility but rather health issues, divorce and the economy. In this book author Rob Kosberg peels back the curtain on the strategies and mindset needed to overcome debt once and for all. Get this book today and be on your way to a debt free life forever!

What if there were a way to cut through all the financial mumbo-jumbo? Wouldn't it be great if someone could really explain to us-in plain and simple English-the basics we must know about investing in order to insure our financial freedom? At last, here's good news. Jargon-free and written for all investors-experienced, beginner, and everyone in between-The Investment Answer distills the process into just five decisions-five straightforward choices that can lead to safe and sound ways to manage your money. When Wall Street veteran Gordon Murray told his good friend and financial advisor, Dan Goldie, that he had only six months to live, Dan responded, "Do you want to write that book you've always wanted to do?" The result is this eminently valuable primer which can be read and understood in one sitting, and has advice that benefits you, not Wall Street and the rest of the traditional financial services industry. The Investment Answer asks readers to make five basic but key decisions to stack the investment odds in their favor. The advice is simple, easy-to-follow, and effective, and can lead to a more profitable portfolio for every investor. Specifically: Should I invest on my own or seek help from an investment professional? How should I allocate my investments among stocks, bonds, and cash? Which specific asset classes within these broad categories should I include in my portfolio? Should I take an actively managed approach to investing, or follow a passive alternative? When should I sell assets and when should I buy more? In a world of fast-talking traders who believe that they can game the system and a market characterized by instability, this extraordinary and timely book offers guidance every investor should have.
