"Bold, high-contrast faces will captivate very young babies and help to stimulate developing eyesight. Wave hello to the friendly faces, read the simple words and smile at baby's face in the mirror!"

The award-winning, best-selling Baby Touch series is back with a sleek and playful design. In the first few years of life, babies' vision is still developing. They see first of all in black and white, and in bright, high contrast colours such as yellow and red. Designed to develop babies' eyesight, this book of large, friendly faces will stimulate vision from birth. With clearly-defined simple images that even the youngest children will respond to, it provides a multi-sensory experience that will help focus a baby's

attention and concentration. Wave to mummy, daddy, the animals, the sun, the flower... and who's that in the mirror?

Share these familiar shapes with your baby. It is never too early to look and talk together!

High contrast illustrations of different faces -- boy, girl, awake, asleep and more.

Striking and stylish, *Look Look!* is the ideal first board book for babies just beginning to look and learn and a perfect gift for little hands. Look, look! Children run, fish swim, stars shine . . . all for baby's eyes to see. This sturdy board book, full of high-contrast black-and-white cut-paper art perfect for staring at, is just the thing for the eyes of the youngest babies. A few words in curving red type on each spread describe the scenes—a car races, a cat stretches, flowers bloom—and extend the book's age appeal so that it will be fascinating to older babies, too.

Long before they're able to talk, babies have a whole lot to say! Widen their world with this delightful modern classic—a must-have for growing families and a perfect baby shower or new-baby gift. With this adorable board book of essential signs, babies and toddlers can easily learn how to communicate their needs, wants, and feelings and even make basic observations with a simple gesture. Studies show that babies who use sign language feel less frustrated, throw fewer tantrums, and often learn to talk more easily. Just point to a sign in the book, say the word while making the sign, and the baby will soon be

signing. Communicating a wet diaper or a hungry belly, asking for help or saying "all done" becomes as easy as waving hello or good-bye. And these are just a few of the thirteen signs inside this small and adorably illustrated board book, perfect for little hands and minds to grasp.

Every new parent purchases at least one high-contrast board book, and this one, with its bold, more abstract art, stands out from the crowd. Featuring graphic images that are perfect for infants, parents and babies will love exploring this book together. Infants can distinguish the colors black and white because of their high contrast. But what is the next color infants see? Red! The images in this book have been created based on decades of research and refinement and are accompanied by bouncy, rhyming text.

The award-winning, best-selling Baby Touch series is back with a sleek and playful design. This colourful, carousel playbook is specifically designed to engage and entertain babies during their daily tummy time sessions, helping to encourage movement and develop neck strength. Fold it out and let your baby explore the immersive world full of high-contrast colours, stimulating touch-and-feels and peepo holes.

Presents photographs of babies with facial expressions that show a range of different emotions. On board pages.
