The 2-stroke Vespa is a style icon and an undoubted classic, and an immediately recognized symbol of its native Italy. Demand for these stylish scooters is booming, and interest in restoring and renovating them is at an all-time high. With its clear and concise text aided by extensively captioned full color photographs, this practical book guides the DIY enthusiast through all the stages of restoring a classic 2-stroke Vespa, taking it from a rusty unroadworthy wreck back to its factory fresh, former glory. It shows how to assess wear in all mechanical components, then assists in deciding the best and most cost effective method to renovate or repair. Both large and small frame power units are covered in detail, giving the reader confidence to carry out their own repairs to a high standard, which is both satisfying and cost effective. Brakes, suspension, electrical systems and brightwork are all addressed, from changing a bulb to welding in a new floor pan. An essential reference for all Vespa enthusiasts.

This book provides a comprehensive overview of the emerging technologies for next-generation 5G mobile communications, with insights into the long-term future of 5G. Written by international leading experts on the subject, this contributed volume covers a wide range of technologies, research results, and networking methods. Key enabling technologies for 5G systems include, but are not limited to, millimeter-wave communications, massive MIMO technology and non-orthogonal multiple access. 5G will herald an even greater rise in the prominence of mobile access based upon both human-centric and machine-centric networks. Compared with existing 4G communications systems, unprecedented numbers of smart and heterogeneous wireless devices will be accessing future 5G mobile systems. As a result, a new paradigm shift is required to deal with challenges on explosively growing requirements in mobile data traffic volume (1000x), number of connected devices (10100x), typical end-user data rate (10100x), and device/network lifetime (10x). Achieving these ambitious goals calls for revolutionary candidate technologies in future 5G mobile systems. Designed for researchers and professionals involved with networks and communication systems, 5G Mobile Communications is a straightforward, easy-to-read analysis of the possibilities of 5G systems.

Vespa and Lambretta remain the two most iconic motor scooter brands, even four decades after the latter's demise. But what made them such a European sensation in the postwar era? And why were they particularly popular in Britain in the 1950s and '60s? Motor scooter expert Stuart Owen explains the rise of Innocenti's Lambretta and Piaggio's Vespa, from the wartime ruins of Italy, through years of plenty as the two manufacturers exploited a ready market for affordable, economic transport, and then their decline into more uncertain times as motor cars trespassed on their success. He also explores the rich history of accessorising and customising the scooters, their essential role in the mod movement, and the revival in Vespa's fortunes following the release of the cult film Quadrophenia.

In the 1950s, New York City's Birdland was the center of the world of modern jazz--and a revelation to Bill Crow, a wet-behind-the-ears twenty-two-year-old from Washington State. Located on Broadway between 52nd and 53rd streets, the club named for the incomparable Charlie "Bird" Parker boasted lifesize photo murals of modern jazzmen like Dizzy Gillespie, Lennie Tristano, and, of course, Bird himself, looming large against jet black walls. Exotic live birds perched in cages behind the bar. The midget master of ceremonies, 3'9" Pee Wee Marquette, dressed in a zoot suit and loud tie, smoked huge cigars and screeched mispronounced introductions into the microphone. And the jazz-struck young Crow would park in the bleachers till 4 am, blissfully enveloped by the heady music of Bird, Bud Powell, Max Roach, and a host of other jazz giants. From Birdland to Broadway is an enthralling insider's account of four decades of a life in jazz. Bill Crow, journeyman bass player, superb storyteller, and author of the successful Jazz Anecdotes, here narrates many moving and delightful tales of the pioneers of modern jazz he played with and was befriended by. We find Dizzy Gillespie, with whom Crow, because of prior commitments, regrettably declined steady work, dancing at the Royal Roost, Stan Getz sadly teetering on the brink of losing himself to drugs, and Harry Belafonte (known then as "the Cinderella Gentleman") running a lunch counter in New York's Sheridan Square between music dates. And we also witness many of the highlights of Crow's career, such as in 1955 when the Marian McPartland Trio (with Crow on bass) was named "Small Group of the Year" by Metronome; Crow playing with the Gerry Mulligan Quartet at venues like Storyville in Boston and Harlem's Apollo Theater (where they appeared with Dinah Washington); and the tour of the Soviet Union with Benny Goodman, a journey that might have been a high point of Crow's travels abroad but was marred by Goodman's legendary mistreatment of his band. Moving beyond jazz clubs to the Broadway concert pit and a variety of studio gigs in the '60s, Crow encounters actors such as Yul Brynner and pop-rock acts like Simon and Garfunkel. From the great to the near-great, from Billie Holiday to Judy Holliday, Bill Crow's wealth of personal anecdotes takes the reader from Birdland, to the Half Note, to the Playboy Club, to the footlights of Broadway. This revealing book is a marvelous portrait of the jazz world, told by someone who's been there.
