Take the combined fortunes of Bill Gates, Tiger Woods and Roman Abramovich. Now imagine someone stealing that much money - and being hailed as a financial genius. That man is Bernard Madoff. Backed by governments and global banks, Madoff defrauded \$65 billion from charities and individual investors including Stephen Spielberg. Finally turned in by his own sons, Madoff opened his door in his dressing gown to be arrested by the FBI. Eleven charges and eleven guilty verdicts later he swapped his penthouse for a prison cell. Only \$1 billion was left. Madoff is the first definitive account of the rise and fall of the biggest fraudster ever. It's a story of greed, betrayal and lies, of remorseless risk-taking, family tragedy and financial disaster. Investigative reporter Erin Arvedlund was the first to expose Madoff back in 2001, but Wall Street and the world didn't listen. In this astonishing book she answers the crucial unsolved questions: why and when did Madoff turn his business into a massive fraud? How did he fool so many investors for so long? Who knew the truth? And who, ultimately, is Bernard Madoff?

The untold story of the Madoff scandal, by one of the first journalists to question his investment practices Despite all the headlines about Bernard Madoff, he is still shrouded in mystery. How did he fool so many smart investors for so long? Who among his family and employees knew the truth? The person best qualified to answer these questions is Erin Arvedlund. In early 2001, she was suspicious of the amazing returns of Madoff's hedge fund. Her subsequent article in Barron's could have prevented a lot of misery, had the SEC followed up. Arvedlund presents a sweeping narrative of Madoff's career-from his youth in Queens, New York, to his early days working for his father-in-law, and finally to infamy as the world's most notorious swindler. Readers will be fascinated by Arvedlund's portrayal of Madoff, his empire, and all those who never considered that he might be too good to be true.

A best-selling author offers a deeply disturbing portrait of Bernie Madoff based on dozens of exclusive interviews, in a book that follows the disgraced money manager as he works his way up the social and economic ladder, and eventually scams his trusting clients in a \$65 billion Ponzi scheme.

A New York Times bestseller, the explosive and heartbreaking memoir from the widow of Mark Madoff and the daughter-in-law of Bernard Madoff When the news of Bernard Madoff's Ponzi scheme broke, no one was more shocked than the members of his own family. Before then, Madoff's son, Mark, and

daughter-in-law, Stephanie, had built an idyllic life. Yet, while Mark's thriving business was entirely separate from his father's now notorious fund, he and Stephanie found themselves in the eye of the storm—and grappling with their own sense of betrayal. Mark refused to see or speak to his parents, and on the second anniversary of his father's arrest, he hanged himself. Left to raise her children as a single mother, Stephanie tells the real story of her marriage to Mark, of being a part of the Madoff family, and of life for two years following her father-in-law's arrest and incarceration. *The End of Normal* is a searing inside look at one of the most controversial stories of our time, and an extraordinary memoir of surviving personal tragedy amid public scandal.

The inside story of Bernie Madoff and his \$65 billion Ponzi scheme, with surprising and shocking new details from Madoff himself. Who is Bernie Madoff, and how did he pull off the biggest Ponzi scheme in history? These questions have fascinated people ever since the news broke about the respected New York financier who swindled his friends, relatives, and other investors out of \$65 billion through a fraud that lasted for decades. Many have speculated about what might have happened or what must have happened, but no reporter has been able to get the full story -- until now. In *The Wizard of Lies*, Diana B. Henriques of *The New York Times* -- who has led the paper's coverage of the Madoff scandal since the day the story broke -- has written the definitive book on the man and his scheme, drawing on unprecedented access and more than one hundred interviews with people at all levels and on all sides of the crime, including Madoff's first interviews for publication since his arrest. Henriques also provides vivid details from the various lawsuits, government investigations, and court filings that will explode the myths that have come to surround the story. A true-life financial thriller, *The Wizard of Lies* contrasts Madoff's remarkable rise on Wall Street, where he became one of the country's most trusted and respected traders, with dramatic scenes from his accelerating slide toward self-destruction. It is also the most complete account of the heartbreaking personal disasters and landmark legal battles triggered by Madoff's downfall -- the suicides, business failures, fractured families, shuttered charities -- and the clear lessons this timeless scandal offers to Washington, Wall Street, and Main Street.

This is the story of the greatest con in financial history—one that has commanded the attention of the entire world from the day the news broke on December 11, 2008. Bernard Madoff's financial scheming roped in thousands of victims, ranging from boldfaced names—Steven Spielberg, Mortimer Zuckerman, Kevin Bacon, Elie Wiesel—to ordinary people who saw their nest eggs disappear in a smoke-and-mirrors debacle. The Enron machinations pale beside the havoc that Madoff created in people's lives. Who is this Bernie Madoff? A shady con man? A sociopath? An evil genius? Who was in on it with him? And where is the money? The established expert on the Bernie Madoff case, journalist Andrew Kirtzman offers a riveting analysis of the man and his deeds that is filled with solid research and suspenseful storytelling.

It was a time of unregulated madness. And nowhere was it madder than in Chicago at the dawn of the Roaring Twenties. Enter a slick, smooth-talking, charismatic lawyer named Leo Koretz, who enticed hundreds of people to invest as much as \$30 million—upward of \$400 million today—in phantom timberland and nonexistent oil wells in Panama. This rip-roaring tale of greed, financial corruption, dirty politics, over-the-top and under-the-radar deceit, illicit sex, and a brilliant and wildly charming con man on the town, then on the lam, is not only a rich and detailed account of a man and an era; it's a fascinating look at the methods of swindlers throughout history. As Model Ts rumbled down Michigan Avenue, gang-war shootings announced Al Capone's rise to underworld domination. As bedecked partygoers thronged to the Drake Hotel's opulent banquet rooms, corrupt politicians held court in thriving speakeasies and the frenzy of stock market gambling was rampant. Leo Koretz was the Bernie Madoff of his day, and Dean Jobb shows us that the American dream of easy wealth is a timeless commodity. "Intoxicating and impressively researched, Jobb's immorality tale provides a sobering post-Madoff reminder that those who think everything is theirs for the taking are destined to be taken." —*The New York Times Book Review* "Captivating . . . A story that seems to be as American as it can get, and it's told well." —*The Christian Science Monitor* "A masterpiece of narrative set-up and vivid language . . . Jobb vividly . . . brings the Chicago of the 1880s and '90s to life." —*Chicago Tribune* "This cautionary tale of 1920s greed and excess reads like it could happen today." —*The Associated Press*

"Gaming the LIBOR—that is, fixing the price of money—had become just that: a game. Playing it was the price of admission to a club of men who socialized together, skied in Europe courtesy of brokers and expense accounts, and reaped million-dollar bonuses." In the midst of the financial crisis of 2008, rumors swirled that a sinister scandal was brewing deep in the heart of London. Some suspected that behind closed doors, a group of chummy young bankers had been cheating the system through interest rate machinations. But with most eyes focused on the crisis rippling through Wall Street and the rest of the world, the story remained an "open secret" among competitors. Soon enough, the scandal became public and dozens of bankers and their bosses were caught red-handed. Several major banks and hedge funds were manipulating and misreporting their daily submission of the London Interbank Offered Rate, better known as the LIBOR. As the main interest rate that pulses through the banking community, the LIBOR was supposed to represent the average rate banks charge each other for loans, effectively setting short-term interest rates around the world for trillions of dollars in financial contracts. But the LIBOR wasn't an average; it was a combination of guesswork and outright lies told by scheming bankers who didn't want to signal to the rest of the market that they were in trouble. The manipulation of the "world's most important number" was even greater than many realized. The bankers kept things looking good for themselves and their pals while the financial crisis raged on. Now Erin Arvedlund, the bestselling author of *Too Good to Be True*, reveals how this global network created and perpetuated a multiyear scam against the financial system. She uncovers how the corrupt practice of altering the key interest rate occurred through an unregulated and informal honor system, in which young masters of the universe played fast and loose, while their more seasoned bosses looked the other way (and would later escape much of the blame). It was a classic private understanding among a small group of competitors—you scratch my back today, I'll scratch yours tomorrow. Arvedlund takes us behind the scenes of elite firms like Barclays Capital, UBS, Rabobank, and Citigroup, and shows how they hurt ordinary investors—from students taking out loans to homeowners paying mortgages to cities like Philadelphia and Oakland. The cost to the victims: as much as \$1 trillion. She also examines the laxity of prominent regulators and central bankers, and exposes the role of key figures such as: Tom Hayes: A senior trader for the Swiss financial giant UBS who worked with traders across eight other banks to influence the yen LIBOR. Bob Diamond: The shrewd multimillionaire American CEO of Barclays Capital, the British bank whose traders have been implicated in the manipulation of the LIBOR. Mervyn King: The governor of the Bank of England, who ignored U.S. Treasury secretary Tim Geithner's repeated recommendations to establish stricter regulations over the interest rate. Arvedlund pulls back the curtain on one of the great financial scandals of our time, uncovering how millions of ordinary investors around the globe were swindled by the corruption and greed of a few men.
