Yet Matt Ridley does more than describe how things are getting better. He explains why. Prosperity comes from everybody working for everybody else. The habit of exchange and specialization---which started more than 100,000 years ago---has created a collective brain that sets human living standards on a rising trend. The mutual dependence, trust, and sharing that result are causes for hope, not despair. --

Governance in Developing Asia is one of the first books of its kind to provide an overview of the role that better governance and citizen empowerment can play in improving public service delivery in developing Asia. The World Development Report 2004 se

Among the buildings on the National Mall in Washington, D.C., only the Pan American Union (PAU) houses an international organization. The first of many anticipated "peace palaces" constructed in the early twentieth century, the PAU began with a mission of cultural diplomacy, and after World War II its Visual Arts Section became a leader in the burgeoning hemispheric arts scene, proclaiming Latin America's entrée into the international community as it forged connections between a growing base of middle-class art consumers on one hand and concepts of supranational

citizenship and political and economic liberalism on the other. *Making Art Panamerican* situates the ambitious visual arts programs of the PAU within the broader context of hemispheric cultural relations during the cold war. Focusing on the institutional interactions among aesthetic movements, cultural policy, and viewing publics, Claire F. Fox contends that in the postwar years, the PAU Visual Arts Section emerged as a major transfer point of hemispheric American modernist movements and played an important role in the consolidation of Latin American art as a continental object of study. As it traces the careers of individual cultural policymakers and artists who intersected with the PAU in the two postwar decades—such as Concha Romero James, Charles Seeger, José Gómez Sicre, José Luis Cuevas, and Rafael Squirru—the book also charts the trajectories and displacements of sectors of the U.S. and Latin American intellectual left during a tumultuous interval that spans the Mexican Revolution, the Spanish Civil War, the New Deal, and the early cold war. Challenging the U.S. bias of conventional narratives about Panamericanism and the postwar shift in critical values from realism to abstraction, *Making Art Panamerican* illuminates the institutional dynamics that helped shape aesthetic movements in the critical decades following World War II.

Whether it's the money, the intellectual rigor, the glamour, or the work that attracts job seekers, their not alone: Consulting firms are among the most popular employers of MBAs and undergraduates. In this book, readers will explore profiles of 40 firms; the latest trends; a typical week in the life of a consultant; typical career paths; and the dreaded case interview.

In what follows can be found the doors to a house of words and stories. This house of words and stories is the "Archive of New Mexico" and the doors are each of the documents contained within it. Like any house, New Mexico's archive has a tale of its own origin and a complex history. Although its walls have changed many times, its doors and the encounters with those doors hold stories known and told and others not yet revealed. In the Archives, there are thousands of doors (4,481) that open to a time of kings and popes, of inquisition and revolution. "These archives," writes Ralph Emerson Twitchell, "are by far the most valuable and interesting of any in the Southwest." Many of these documents were given a number by Twitchell, small stickers that were appended to the first page of each document, an act of heresy to archivists and yet these stickers have now become part of the artifact. These are the doors that Ralph Emerson Twitchell opened at the dawn of the 20th century with a key that has served scholars, policy-makers, and activists for generations. In 1914 Twitchell published in two volumes "The Spanish Archives of New Mexico," the first calendar and guide to the documents from the Spanish colonial period. Volume One of the two volumes focuses on the collection known as the "Spanish Archives of New Mexico, Series I," or SANM I, an appellation granted because of Twitchell's original compilation and description of the 1,384 documents identified in the first volume of his series. The Spanish Archives of New Mexico was assembled by the Surveyor General of New Mexico (1854-1891) and the Court of Private Land Claims (1891-1904). The collection consists of civil land records of the Spanish period governments of New Mexico and materials created by the Surveyor General and Court of Private Land Claims during the process of adjudication. It includes the original Spanish colonial petitions for land grants,

land conveyances, wills, mine registers, records books, journals, docketts, reports, minutes, letters, and a variety of other legal documents. Each of these documents tell a story, sometimes many stories. The bulk of the records accentuate the amazingly dynamic nature of land grant and settlement policies. While the documents reveal the broad sweep of community settlement and its reverse effect, hundreds of last wills and testaments are included in these records, that are scripted in the most eloquent and spiritual tone at the passing of individuals into death. These testaments also reveal a legacy of what colonists owned and bequeathed to the next generations. Most of the documents are about the geographic, political and cultural mapping of New Mexico, but many reflect the stories of that which is owned both in terms of commodities and human lives. Archives inevitably, and these archives more than most, help to shape current debates about dispossession, the colonial past, and the postcolonial future of New Mexico. For this reason, the task of understanding the role of archives, archival documents, and the kinds of stories that emanate from them has never been more urgent. Let this effort and the key provided by Twitchell in his two volumes open the doors wide for knowledge to be useful today and tomorrow.--From the Foreword by Estevan Rael-Galvez, New Mexico State Historian"
