opportunities and risks that will shape the market for years to come. One of today's most respected names in finance, Mohamed El-Erian puts recent events in their proper context, giving you the tools that can help you interpret the markets, benefit from global economic change, and navigate the risks. The world economy is in the midst of a series of hand-offs. Global growth is now being heavily influenced by nations that previously had little or no systemic influence. Former debtor nations are building unforeseen wealth and, thus, enjoying unprecedented influence and facing unusual challenges. And new derivative products have changed the behavior of many market segments and players. Yet, despite all these changes, the system's infrastructure is yet to be upgraded to reflect the realities of today's and tomorrow's world. El-Erian investigates the underlying drivers of global change to shed light on how you should: Think about the new opportunities and risks Construct an appropriately diversified and internationalized portfolio Protect your portfolio against new sources of systemic risk Best think about the impact of central banks and financial policies around the world Offering up predictions of future developments, El-Erian directs his focus to help you capitalize on the new financial landscape, while limiting exposure to new risk configurations. When Markets Collide is a unique collection of books for investors and policy makers around the world. In addition to providing a thorough analysis and clear perspective of recent events, it lays down a detailed map for navigating your way through an otherwise perplexing new economic landscape.

This volume in the Kids of Canada series follows two children as they learn that sometimes the best way to get what you want is to share. Mike likes Jenny's bike, but he doesn't know how to ride one. He's too afraid to tell her that, so he tries to learn how to ride it on his own. That only makes trouble for them both. Mike and the Bike is a book for beginning readers that shows how young people can overcome their fears--together.

Annotation. A third volume of essays from various activities and events organized by the Centre for International Borders Research at Queens University of Belfast considers three modes in the analysis of culture and cross-border cooperation--cultures of co-operation, co-operation about culture, and the impact of culture on forms of co-operation--as possible strategies in the comparative social science of European borderlands. The case studies range from Israel's Green Line to Ulster Unionist identity. There is no index. Annotation ©2004 Book News, Inc., Portland, OR (booknews.com).
