Iain Spragg is a sports journalist and author with 20 years experience. He has written for a wide range of national newspapers including the

“ More fun to read than the movie was to watch... a scene-stealing book. ” — The Washington Post An Entertainment Weekly "Must List" selection Caddyshack is one of the most beloved comedies of all time, a classic snobs vs. slobs story of working class kids and the white collar buffoons that make them haul their golf bags in the hot summer sun. It has sex, drugs and one very memorable candy bar, but the movie we all know and love didn't start out that way, and everyone who made it certainly didn't have the word “ classic ” in mind as the cameras were rolling. In Caddyshack:The Making of a Hollywood Cinderella Story film critic for Entertainment Weekly Chris Nashawaty goes behind the scenes of the iconic film, chronicling the rise of comedy's greatest deranged minds as they form The National Lampoon, turn the entertainment industry on its head, and ultimately blow up both a golf course and popular culture as we know it. Caddyshack is at once an eye-opening narrative about one of the most interesting, surreal, and dramatic film productions there's ever been, and a rich portrait of the biggest, and most revolutionary names in Hollywood. So, it's got that going for it...which is nice.

NEW YORK TIMES BESTSELLER Globe-trotting golfer Tom Coyne has finally come home. And he's ready to play all of it. After playing hundreds of courses overseas in the birthplace of golf, Coyne, the bestselling author of A Course Called Ireland and A Course Called Scotland, returns to his own birthplace and delivers a “ heartfelt, rollicking ode to golf...[as he] describes playing golf in every state of the union, including Alaska: 295 courses, 5,182 holes, 1.7 million total yards ” (The Wall Street Journal). In the span of one unforgettable year, Coyne crisscrosses the country in search of its greatest golf experience, playing every course to ever host a US Open, along with more than two hundred hidden gems and heavyweights, visiting all fifty states to find a better understanding of his home country and countrymen. Coyne's journey begins where the US Open and US Amateur got their start, historic Newport Country Club in Rhode Island. As he travels from the oldest and most elite of links to the newest and most democratic, Coyne finagles his way onto coveted first tees (Shinnecock, Oakmont, Chicago GC) between rounds at off-the-map revelations, like ranch golf in Eastern Oregon and homemade golf in the Navajo Nation. He marvels at the golf miracle hidden in the sand hills of Nebraska and plays an unforgettable midnight game under bright sunshine on the summer solstice in Fairbanks, Alaska. More than just a tour of the best golf the United States has to offer, Coyne's quest connects him with hundreds of American golfers, each from a different background but all with one thing in common: pride in welcoming Coyne to their course. Trading stories and swing tips with caddies, pros, and golf buddies for the day, Coyne adopts the wisdom of one of his hosts in Minnesota: the best courses are the ones you play with the best people. But, in the end, only one stop on Coyne's journey can be ranked the Great American Golf Course. Throughout his travels, he invites golfers to debate and help shape his criteria for judging the quintessential American course. Should it be charmingly traditional or daringly experimental? An architectural showpiece or a natural wonder? Countless conversations and gut instinct lead him to seek out a course that feels bold and idealistic, welcoming yet imperfect, with a little revolutionary spirit and a damn good hot dog at the turn. He discovers his long-awaited answer in the most unlikely of places. Packed with fascinating tales from American golf history, comic road misadventures, illuminating insights into course design, and many a memorable round with local golfers and celebrity guests alike, A Course Called America is “ a delightful, entertaining book even nongolfers can enjoy ” (Kirkus Reviews).

Remarkable Golf Courses encompasses the extremes of the sport – from the highest golf course in La Paz, Bolivia, to the lowest, in Death Valley, USA; from the most northerly in the Arctic Circle to the most southerly in Tierra del Fuego. The many quirks of the golfing world are covered, such as the 18th green the other side of the River Lea which is serviced by an electric ferry, or the LA golf course that has its own funicular railway, or the floating golf hole in Idaho, where it's not just the pin position that's changed every day, it's the distance from the shore! Golf courses that feature neolithic standing stones (Scotland), Roman roads (England), and ruined medieval castles (Wales) take their place alongside the old temples of Delhi or a UNESCO World Heritage bridge that is used to link the 9th and 10th at Angkor Wat. There are the beloved classic courses of St. Andrews, Carnoustie, Royal St. George and Westward Ho!. There are spectacular golf courses hewn out of the Nevada and Arizona desert, green oases in a cactus-strewn, rocky landscape, along with Hawaiian courses fringed by barren black lava flows. But nothing can beat the thrill in Guatemala of lining up your drive on an active volcano at the Fuego Maya course. In comparison there are the traditional wind-blown Scottish links, such as the Machrie Hotel on the island of Islay which has the most blind greens on any course, or the remote Isle of Barra where greens are only accessible via a kissing gate. Fancy swapping countries mid-round? You can at the Llanmymynech club in Wales. At the fourth hole golfers tee off in Wales and putt out on the green in England. Remarkable Golf Courses brings together some astonishing stories with some extraordinary photography.

"There has been a breakdown in American public life that no election can fix. Americans cannot even converse about politics. All the usual explanations for our condition have failed to make things better. Bruce Ledewitz shows that America is living with the consequences of the Death of God, which Friedrich Nietzsche knew would be momentous and irreversible. God was this culture's story of the meaning of our lives. Even atheists had substitutes for God, like inevitable progress. Now we have no story and do not even think about the nature of reality. That is why we are angry and despairing. America's future requires that we begin a new story by each of us asking a question posed by theologian Bernard Lonergan: Is the universe on our side? When we commit to live honestly and fully by our answer to that question, even if our immediate answer is no, America will begin to heal. Beyond that, pondering the question of the universe will allow us to see that there is more to the universe than blind forces and dead matter. Guided by the naturalism of Alfred North Whitehead's process philosophy, and the historical faith of Dr. Martin Luther King, Jr., we can learn to trust that the universe bends toward justice and our welfare. That conclusion will complete our healing and restore faith in American public life. We can live without God, but not without thinking about holiness in the universe"--

The most trusted guide to getting published! Want to get published and paid for your writing? Let *Writer's Market 2018* guide you with thousands of publishing opportunities—including listings for book publishers, consumer and trade magazines, contests and awards, and literary agents. These listings feature contact and submission information so you can get started right away. Beyond the listings, you'll find all-new material devoted to the business and promotion of writing. Discover the secrets to writing better queries and selling more articles, tips to earn money from blogging, and how to develop a standout author brand. Plus, you'll learn how to create an effective e-mail newsletter, improve organization, and build a solid foundation for long-term writing success. This edition includes the ever-popular pay-rate chart and book publisher subject index. You'll also gain access to: Lists of professional writing organizations Sample query letters A free digital download of *Writer's Yearbook*, featuring the 100 Best Markets: WritersDigest.com/WritersDigest-Yearbook-17. Includes exclusive access to the webinar "Funding Your Writing Career" from C. Hope Clark, founder of FundsForWriters.com and author of *The Edisto Island Mysteries*.

Recreation and Sport are an integral part of Canadian culture. This is nowhere more evident than in the Muskoka District of Ontario. Beginning in the 1860s, people from more populated areas of Southern Ontario and the North Eastern United States flocked to Muskoka to enjoy nature's bounty. They came to fish, hunt, canoe, sail, swim, hike and explore. Many vacationed at one of the ever expanding selection of Muskoka resorts. Others built their own recreational retreats or cottages. Also beginning in the 1860s, Free Land Grant recipients ventured to the area to take land and attempt to farm it. They became the permanent population base and set about developing their own recreations and sporting organizations. This book surveys the attempts of all of Muskoka's residents and visitors to enjoy the recreational opportunities the region provided. The main focus of this local history is on how people in the past used recreation and sport to enhance their lives. In other words, what they did for exercise and fun.

NEW YORK TIMES BESTSELLER • The inside story of the Houston Astros, whose relentless innovation took them from the worst team in baseball to the World Series in 2017 and 2019 “ Reiter ’ s superb narrative of how the team got there provides powerful insights into how organizations—not just baseball clubs—work best. ” —The Wall Street Journal *Astroball* picks up where Michael Lewis ’ s acclaimed *Moneyball* leaves off, telling the thrilling story of a championship team that pushed both the sport and business of baseball to the next level. In 2014, the Astros were the worst baseball team in half a century, but just three years later they defied critics to win a stunning World Series. In this book, Ben Reiter shows how the Astros built a system that avoided the stats-versus-scouts divide by giving the human factor a key role in their decision-making. Sitting at the nexus of sports, business, and innovation, *Astroball* is the story of the next wave of thinking in baseball and beyond, at once a remarkable underdog tale and a fascinating look at the cutting edge of evaluating and optimizing human potential.

The caddies of the Augusta National Golf Club are some of the game's most colorful characters. Their stories are intertwined with one of the world's most respected private clubs, its elite membership, and golf's greatest champions. The caddies witnessed every great moment, both private and public, at Augusta National, from Gene Sarazen's "shot heard 'round the world" to Nicklaus's winning a record six Masters. Then in 1983, things changed forever when "Tour caddies" were allowed at the Masters for the first time. Memories of a better day live on as Ward Clayton documents a history as compelling as the game itself. *Men on the Bag* delivers a story never-before-told with passion and candor.

Most golfers have been set up to fail. Trying to follow protocols that statistically stack the odds against them has led to an enormous amount of frustration and angst for most of the recreational golfers out there. Poor scores and extremely slow play have caused many golfers to lose much of their passion for golf. GITCA golf has streamlined the parameters for recreational play to allow for better scoring opportunities and much more expedient play. By adapting our guidelines and maintaining an eternally grateful mindset, everyone who tees it up will be inspired to play golf much more often with those closest to them.
