This solid introduction provides an overview of world regional geography and is strongly grounded in spatial concepts and linked to basic systematic geography. Organized according to developed and less developed regions, it covers the human and physical foundations of world geography, Europe, the Soviet Union, North America, Australia, Japan, Middle and South America, Africa, Southwest Asia, South Asia, China and Southeast Asia. As with previous editions, the Sixth Edition features outstanding illustrative material and a full-color cartographic program but also incorporates four major chapter revisions, substantial updating and new chapter on opening maps. Among the major topics covered are regional concepts and classification, culture and landscape and physical-environmental dimensions. Specifics for each region are also discussed such as changing natural environment; history, settlement, population, politics, economics and their impact; industrialization and urbanization; environmental hazards and much more.

Questions for the NCLEX-PN Examination include multiple-choice and alternate-format questions related to content in the textbook. Clinical Situations ask you to apply key concepts to nursing practice. Setting Priorities questions ask you to rank tasks in order of importance — prioritization is one of the most important skills in nursing. Application of the Nursing Process questions help you make the connection between the nursing process and real-world patient care. Text page references make it easy to locate answers in the textbook. To the Student instructions provide study hints to ESL and non-ESL students. Updated content reflects current issues in nursing, such as QSEN standards.

Reinforce your understanding of radiation therapy and prepare for the Registry exam! Mosby's Radiation Therapy Study Guide and Exam Review is both a study companion for Principles and Practice of Radiation Therapy, by Charles Washington and Dennis Leaver, and a superior review for the certification exam offered by the American Registry for Radiologic Technology (ARRT). An easy-to-read format simplifies study by presenting information in concise bullets and tables. Over 1,000 review questions are included. Written by radiation therapy expert Leia Levy, with contributions by other radiation therapy educators and clinicians, this study tool provides everything you need to prepare for the ARRT Radiation Therapy Certification Exam. This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. Over 1000 multiple-choice questions in Registry format are provided in the text, allowing you
