(This is my review which appeared in the October 18, 2012 issue of the Christian Science Monitor) THE FISH THAT ATE THE WHALE, by Rich Cohen Georges Doriot, the eminent Harvard Business School professor and widely acknowledged "father of venture capital," had an annual ritual: He would have his students examine a Boston business directory from 100 years prior and then ask them how many of those businesses were still in operation. Invariably, the response ranged from few to none.
