Written by residents and interns at Washington University, this small pocket book contains all the essentials that every intern needs to know from day 1 on the wards. It presents practical, must-have information, from the front lines of the wards, in an easy-to-use, quick-reference format. The book brings together, in one condensed source, all the most important pearls from other manuals--including ACLS algorithms, useful formulas, patient notes, top ten workups, common calls/complaints, and key points on the most common problems. Content includes vital

workups and common calls and complaints residents will encounter during their rotations, including key history, what not to miss, and when to call for help.

"As an intern you will encounter many new challenges. These will range from very simple to most complex. Please remember that you have acquired the tools to address this adversity. And, even when you feel most overwhelmed, you are undoubtedly surrounded by a wealth of available resources that include ancillary and nursing staff, fellow interns, senior residents and attending physicians. Although the year ahead of you may now seem long and daunting, your tasks (other

than survival) are quite achievable. The following competencies/milestones were copied from the curriculum for the in-patient general medicine rotation for the internship program at Washington University School of Medicine and Barnes-Jewish Hospital. You can see that not only are the objectives quite simple, but your rigorous work in medical school has well prepared you to master many of your goals. Throughout the year, use these objectives as a checklist to remind yourself of your accomplishments and to guide your learning in potential areas of weakness.
