The Progressive movement lost much of its momentum in the late 1940s in the United States and from that period the work of Ralph W. Tyler, in particular, has made a lasting impression on curriculum theory

and practice.

In theory, there is no difference between theory and practice, but in practice, as most programmers know, there is practically no similarity between theory and practice. This maxim applies to C compilers for IBM mainframes. In 1996 a message posted to the Usenet discussion system credited Nobel-Prize-winning scientist Richard Feynman: 5.

Milsom explores selected instrumental treatises written by noted players and theorists, together with a number of recorded performances given by celebrated artists in the early years of the twentieth century, to review the similarities and differences between theory and practice. An accompanying CD illustrates this relationship.

From the late nineteenth century on there was a US journal and community of practice centred around social education (see, for example, Scott 1908). Dewey , through the work of Hebart – and his knowledge of Rousseau, Froebel and Pestalozzi – sought to develop what could be described as child-centred theory.
