"e;I genuinely believe I have never taught mathematics better, and my students have never learned more. I just wish I had known all of this twelve years ago."e;Craig Barton is one of the UK's most respected teachers of mathematics. In his remarkable new book, he explains how he has delved into the world of academic research and emerged with a range of simple, practical, effective strategies that anyone can employ to save time and energy and have a positive impact on the long-term learning and enjoyment of students. Craig presents the findings of over 100 books and research articles from the fields of Cognitive Science, Memory, Psychology and Behavioural Economics, together with the conversations he has had with world renowned educational experts on his Mr Barton Maths Podcast, and subsequent experiments with my students and colleagues.

Help students get to grips with the new style examinations in Numeracy and Mathematics with books that build all the necessary skills to progress their learning and develop their problem-solving skills. - Provides one book for each tier ensuring full coverage, with mathematics only questions and chapters clearly highlighted so the specifications can be co-taught or taught separately as required - Organises topics into units so as to provide questions that build understanding and fluency enabling students to confidently tackle and solve real and interesting problems - Enables students to identify the appropriate remediation or extension steps they need in order to make the best progress, through easy to follow progression strands that help to identify gaps in learning - Offers a seamless five year progression when used in conjunction with KS3 Mastering Mathematics

Shows what examiners are looking for in the GCSE coursework and in the exam. This resource provides coverage of the specification so that teachers can deliver the course with confidence and students can approach assessment fully prepared. It includes activities and case studies throughout to engage students with this subject.

Discussion points, exam-style questions and useful chapter summaries. - Provide support for all required practicals along with extra tasks for broader learning. - Support the mathematical and Working scientifically requirements of the new specification with opportunities to develop these skills throughout. - Supports the separate science Chemisrty and is also suitable to support the WJEC GCSE Science (Double Award) qualification.

Francis Joseph Cassavant is 18. He has just returned home from the Second World War, and he has no face. He does have a gun and a mission: to murder his childhood hero. Francis lost most of his face when he fell on a grenade in France. He received the Silver Star for bravery, but was it really an act of heroism? Now, having survived, he is looking for a man he once admired and respected, a man adored by many people, a man who also received a Silver Star for bravery. A man who destroyed Francis's life.

Ensure that every student can fulfil their potential with this tailor-made Student Book for the 2017 specifications; our bestselling Business authors develop knowledge and skills through clear explanations, real-life examples and assessment practice questions. - Builds understanding of business concepts through accessible explanations, supported by definitions of key terms and tips that highlight important points and common misconceptions - Enables students to apply their knowledge to the real business examples, issues and contexts in the 'Business insight' feature - Develops investigative, analytical and evaluation skills through multiple choice, short answer and case study/data response questions, sample answers and commentary - Encourages students to track their progress using learning outcomes, end-of-chapter summaries and knowledge-check questions - Helps students practise and improve their quantitative skills via the 'Maths moment' feature - Stretches students with questions that test their ability to make an informed judgement
